Breakey, at Michael's eight stone, Main street CONGRESSIONAL DOCUMENTS.

We have received from Hon, C. W. Kendall a copy of a bill introduced in the House by him on the 19th inst., to provide for the erection of a public building at Carson, which was read twice, referred to the Committee on Public Buildings and Grounds, and ordered to be printed; also his bill for the relief of persons for damages sustained by reason of Indian depredations, which was read twice, referred to the Committee on Indian Affairs, and ordered to be printed. The first bill appropriates \$100,000 for the purchase at private sale, or by condemnation pursuant to the laws of Nevada. of a suitable lot in Carson City for the erection of a fire-proof building for the Post-office and United States Courts; provided that no money is paid until a valid title is obtained to the land, and that the State relinquish jurisdiction of the same. The other bill sets forth in its preamble that during the past fifteen years many depredations and injuries, both to persons and property, have been committed by Indians upon our frontier settlers within the States of California, Oregon, Nevada, Kansas, and Nebraska, and the adjacent Territories, and provides for the appointment by the President of three Commissioners, who shall hear complaints of Indian depredations, have power to compel the attendance of witnesses and administer oaths, hold their sessions at such times and places as will be most convenient to claimants, to examine and cross-examine claimants, to take care that no unjust claim be established, and to procure testimony to reject fictitious claims. The first session, if the bill passes, is to be held at Carson. on the 1st of July next, and all claims must be presented on or before the 1st of December next. All findings of the Commissioners are to be transmitted to the Interior Department, and afterwards special to the Tribune, referring to the A Valuable Discovery.—Mr. Carson, rejection or modification.
